The Chat PC-D4+ speech device is an ideal communication solution for children and adults with communication difficulties, who are looking for a portable, simple and rugged solution.

It is approved by Medicare, Medicaid and most private insurance programs.

The Chat PC-D4+

Say what you want! Communicate with speed and confidence using one of the fastest and most portable communication systems available!

The Chat PC-D4+ from Talk To Me Technologies is an easy-to-use, powerful, flexible and rugged communication system that is designed specifically for individuals needing a lightweight and portable solution. It is approved by Medicare, Medicaid and most private insurance programs.

The Chat PC-D4+ is an ideal communication solution for children and adults with communication difficulties resulting from Autism, Cerebral Palsy, Stroke, Brain Injury, Multiple Sclerosis, Muscular Dystrophy, Spinal Cord injury, Developmental Delays, ALS (Lou Gehrig's disease) and many other similar conditions.

Portable.

Take the Chat PC-D4+ anywhere! This self-contained device is lightweight and portable at only 19 oz. – including a touch screen, amplified speaker and extra battery – all nestled in a protective case. The Chat PC-D4+ is easy to carry and its compact size makes it a great fit for individuals with autism, aphasia, ALS, Down syndrome, developmental delays, laryngectomy or anyone else needing a small, lightweight, portable device.

Powerful.

Powerful communication! Communicate with ease using an extensive collection of communication options ranging from very simple, symbol-based vocabulary sets to more advanced phrase and core word options. The Chat PC-D4+ offers a wide variety of vocabulary selected, designed and used by other speech-generating device users based on real conversations they have had with real people. Much of the vocabulary content also draws from and incorporates the research of Dr. David Beukelman, Dr. Diane Nelson-Bryen, Dr. Elizabeth K. Hanson and Barbara Collier.

Rugged.

The PDA integrated into the Chat PC-D4+ is a ruggedized, industrial computer. A rubberized case protects the Chat PC-D4+ and enhances its ruggedness, sound quality and battery life. The casing contains both a high quality audio amplifier and an additional battery that doubles the battery life. A protective cover for the display area can serve as a stand when the Chat PC-D4+ is being used and as a screen protector when being transported.

Simple.

Very simple to customize and use! Following a quick and easy set up, users are ready to begin communicating in just a few minutes. The Chat PC-D4+ findenables users to communicate using a range of powerful communication options and an easy-to-learn, intuitive interface. It's packed with many different options to meet a wide range of skills and abilities, yet it's easy to customize with personal phrases and messages, as well. The included Desktop Chat software is a breeze to use for customization and the transfer of customized content from your computer to the Chat PC-D4+.
