The Chat PC-Silk speech-generating device is an ideal communication solution for children and adults with communication difficulties, who are looking for the ultimate in portability.

It is approved by Medicare, Medicaid and most private insurance programs.

The Chat PC-Silk

Say what you want! Communicate with speed and confidence using one of the fastest and most portable communication systems available!

The Chat PC-Silk device from Talk To Me Technologies is an easy-to-use, popular, powerful, flexible communication system that is designed specifically for individuals needing a lightweight and portable solution. It is approved by Medicare, Medicaid and most private insurance programs.

The Chat PC-Silk device is an ideal communication solution for children and adults with communication difficulties resulting from Autism, Cerebral Palsy, Stroke, Brain Injury, Multiple Sclerosis, Muscular Dystrophy, Spinal Cord injury, Developmental Delays, ALS (Lou Gehrig's disease) and many other similar conditions.

Portable.

Take the Chat PC-Silk anywhere! It is lightweight and portable at only 9 oz. (or 12.5 oz. with the protective rubber housing). The Chat PC-Silk is easy to carry and its compact size makes it a great fit for individuals with autism, aphasia, ALS, Down syndrome, developmental delays, laryngectomy or anyone else needing a small, lightweight, portable device.

Powerful.

Powerful communication! Communicate with ease using an extensive collection of communication options ranging from very simple, symbol-based vocabulary sets to more advanced phrase and core word options. The Chat PC-Silk offers a wide variety of vocabulary selected, designed and used by other speech-generating device users based on real conversations they have had with real people. Much of the vocabulary content also draws from and incorporates the research of Dr. David Beukelman, Dr. Diane Nelson-Bryen, Dr. Elizabeth K. Hanson and Barbara Collier.

Flexible.

The Chat PC-Silk device is extremely flexible and supports a wide range of communication skills and abilities for both kids and adults alike. With amazing, natural-sounding, text-to-speech voices from Acapela or NeoSpeech, users can be assured they are communicating with the best voices available. The Chat PC-Silk comes with your choice of 12,000+ SymbolStix or PCS communication symbols. The flexibility is also available for direct selection, switch scanning and auditory scanning.

Simple.

Very simple to customize and use! Following a quick and easy set up, users are ready to begin communicating in just a few minutes. The Chat PC-Silk device enables users to communicate using a range of powerful communication options and an easy-to-learn, intuitive interface. It's packed with many different options to meet a wide range of skills and abilities, yet it's easy to customize with personal phrases and messages, as well. The included Desktop Chat software is a breeze to use for customization and the transfer of customized content from your PC to the Silk device.
